EXPERIENCE

Full Stack Developer

2024–2025

Engineered and deployed full-stack web applications to showcase technical expertise in front-end and back-end development, aligning with modern design principles and user-centric workflows.

Spearheaded website optimization initiatives, leveraging React.js, Node.js, and Tailwind CSS to enhance performance and accessibility.

Implemented responsive design frameworks to ensure cross-device compatibility, improving mobile traffic retention by 25%.

Engineered and delivered 10+ professional web applications for clients across Europe, leveraging cutting-edge technologies (e.g., React.js, Node.js, and modern UI/UX frameworks) to drive scalable, user-centric solutions.

2024–2025 Certified Web Development Instructor

Delivered a 20+ hour training course in web development for university students at Homs University, covering modern technologies (e.g., HTML5, CSS3, JavaScript, and React.js) and industry-relevant best practices.
